I honestly feel like I could have written this book. Most of it covers what you can sell (which is almost anything) on , then the rest tells you to sell top selling items and not to price match your competitors. That is literally all this book covers. Im sure most of you are going to buy it because its only \$6 (that is probably how he is making his money), but save your time and look for a real book. Loved the conclusion and how he is begging for 5 star reviews. I actually laughed when I read this paragraph. 7 pages total that covers material/ \$6.50 ("book" price) = over \$1 per page.
